If you have the NeuroShell Trader Professional, you can also choose whether or not the parameters should be optimized. After backtesting the trading strategy, use the 'Detailed Analysis ...' button to view the backtest and trade by trade statistics for the strategy.

To scan a large number of ticker symbols for potential candlestick signals, select '**Scan Ticker Symbols**' from the '**File**' Menu and enter the entry conditions from either of the

trading systems above as the scan criteria. Once the scan is finished, it can be saved for future use by simply pressing the “**Save as Template**” button.

Users of NeuroShell Trader can go to the STOCKS & COMMODITIES section of the NeuroShell Trader free technical support Website to download a copy of any of the traders’ tips.
